

Video Tips Easy Examples

Offer Wait Time

1

Observe your child's interests. Give encouraging expectant looks for him to interact. Listen closely to what your child says.

2

Stop in mid-song for a baby to react. Allow a toddler time to think of ideas. Pause for a preschooler to initiate conversations.

3

By offering wait time, you help children be aware of what was heard, how to respond, and when words are expected.

The leading diagnostic and educational center for
young children with hearing loss

806 West Adams Boulevard, Los Angeles, California 90007
